Chapter 5

Print is always in conversation with the digital...

sometimes allegiing to mechanisms...

other times resisting those mechanisms

imitates electronic textuality

intensifies traditions of print

Major characteristics of digital text.

Computer-mediated text is:

1. Layered
2. Multimodal
3. Storage is separate from performance
4. Fractured temporally

The Street of Crocodiles

Tree of Codes
Chapter 5
THE FUTURE OF LITERATURE: PRINT NOVELS AND THE MARK OF THE DIGITAL
Hayles Prediction: Digital Lit will be a “significant component of the twenty-first century canon.” (159)
But all literature is digital...
Print is always in conversation with the digital... sometimes adopting its mechanism.
conversation with the digital...

sometimes adopting its mechanisms...
other times resisting those mechanisms
Major characteristics of digital text.

Computer-mediated text is:

1. Layered
2. Multimodal
3. Storage is separate from performance
4. Fractured temporarily
Layered Text
